## SKILLS AND TECH STACKS

- HTML
- CSS
- JavaScript
- React
- Redux
- Bootstrap
- TypeScript
- Material UI
- Excellent problem-solving skills.
- Fast Learner
- Microsoft Office
- Critical thinking and problem solving
- Adaptability
- Programming

## EDUCATION

**I.Sc, KMC College, Kathmandu**

07/2021 - 07/2023

**3.42 GPA**

**SEE, Times School, Mirchaiya**

05/2019 - 05/2021

**3.6 GPA**

## PROFILE

I am a seasoned Frontend Web Developer with a strong command of HTML, CSS, React.js, JavaScript, and Redux, underpinned by a solid foundation in TypeScript, Material UI, and Chakra UI. My skill set not only encompasses frontend technologies but also extends to my growing proficiency in backend development, currently focused on Node.js. Additionally, I possess experience in data persistence through Redux Persist. This diverse skill portfolio enables me to contribute comprehensively to web development projects, from crafting compelling user interfaces to expanding my knowledge in backend development. I am actively seeking opportunities to leverage my frontend expertise while continuously enhancing my backend development skills, ensuring I remain at the forefront of web development trends and best practices.

## EXPERIENCE HISTORY

### IT ADMIN OFFICER

05/2021 - 09/2021

In my role as an IT Administration Officer at Himalaya Higher Secondary School, I provided comprehensive technical support to staff and students, managed IT equipment procurement and maintenance, ensured smooth network operation, implemented data backup procedures, administered user accounts, and contributed to optimizing communication systems.

## Projects

### Ecommerce Website

I spearheaded the development of a feature-rich e-commerce website using cutting-edge technologies such as React.js and Redux for efficient state management. Leveraging the power of UI libraries including Chakra UI, Material UI, and Bootstrap, I ensured a seamless and visually appealing user experience. This project showcased my proficiency in front-end development, responsive design, and state management, enabling customers to browse, shop, and make secure transactions. It not only demonstrated my technical skills but also my ability to collaborate with a team and deliver a high-quality product within a specified timeline. The project served as a testament to my dedication to creating user-friendly and visually captivating web applications.

# COURSES

**Diploma in Front End Web Development ,  
Vrit Technologies**

06/2023 - 08/2023

# HOBBIES

In my free time, I'm an avid AI enthusiast, particularly intrigued by chat systems and language models like Chat GPT. These cutting-edge technologies employ natural language processing and machine learning to generate human-like text responses. I actively engage in online AI communities, attend webinars, and participate in AI-related projects to stay updated with the latest advancements. This hobby reflects my genuine curiosity and contributes to my knowledge and skills in a field with immense potential for the future.

Maithili

## Lecture Website

Created a Lecture App using React and Redux, incorporating full authentication, login, signup, and CRUD functionality. Demonstrated effective use of routing for seamless navigation. This project honed my skills in front-end development, state management with Redux, and practical implementation of CRUD operations.

## Weather Website

Developed a Weather App using React.js that interfaces with a weather API to provide real-time weather updates. Designed a user-friendly interface displaying essential weather information for specified locations. This project reinforced my proficiency in React.js and API integration, while enhancing my ability to create functional and visually appealing web applications.
